- Team Collaboration
- Time Management
- Adaptability
- Creative Problem-solving

## LANGUAGES

- English (Fluent)

## REFERENCE

Open to internships, part-time opportunities, and collaborative projects

## PROFILE

Motivated Software Engineering undergraduate pursuing BSc (Hons) in Software Engineering with a strong foundation in multiple programming languages and web technologies. Passionate about software development, UI/UX design, and creating innovative solutions. Eager to apply technical skills and fresh perspectives to contribute to dynamic software development projects while continuing to grow professionally in the technology industry.

## PROJECTS

- **Personal Development Projects**
  - *Individual Contributor*
- **Web Development Projects:** Designed and developed responsive web applications using HTML, CSS, and interactive elements, demonstrating proficiency in front-end development and user experience design
- **Programming Solutions:** Created various applications using C, Python, and Java to solve computational problems, showcasing algorithmic thinking and code optimization skills
- **UI/UX Design Portfolio:** Developed user interface mockups and prototypes using Figma, focusing on user-centered design principles and modern design aesthetics
- **Key Achievements:**
  - Applied object-oriented programming concepts across multiple languages
  - Implemented responsive design principles for cross-platform compatibility
  - Utilized design thinking methodology in UI/UX projects
  - Demonstrated version control and project management skills

## EDUCATION
